Newmarket, Friday, January 10th, 1855.
Travelling Agents.

Mr. Wm. Wilson will commence, on Monday next, the 11th inst., to canvass the Township of King for subscribers to this paper. His receipts will be acknowledged at this office.

Mr. David Graham is our authorized travelling agent east and north, to receive subscriptions and grant receipts for the same. Now is the time to subscribe; money is plenty and prices for all kinds of farm produce range high.

We have been requested to state that in consequence of the catalogue of books in the Library of School Section No. 1, being in the hands of the Printer, for publication, no books will be issued until it is completed, which will be in about eight days.

The Weather for the past week has been remarkably fine, frosty nights and clear sunny days—more like the early spring months, than that of the middle of winter. We are told that the wheat begins to show a yellow, sickening hue.

The New Year has now arrived, and we hope subscribers that commenced about this time will pay for the coming year in advance. This will make it more pleasant for us, and certainly prove a great saving to our subscribers; consequently better for both parties.

There is a piece of Road a little East of the dwelling of Eli Gorman's, Esq., that requires repairing; so much so, in fact, that it is actually dangerous. We, therefore, direct the attention of the Overseers of Highways in the South part of the town, to the necessity of having it repaired immediately.

It is not our intention to dictate to higher persons; but we consider it highly time that notice should be given for the holding of the Annual Meeting of the North York Agricultural Society. We electro the different societies around us are giving the usual notice; but as yet, we have done nothing here.

We direct attention to an advertisement in another column, giving notice of a public dinner to be given to Joseph Hartman, Esq., the member for North York, by his constituents. From the number of gentlemen expected to take part in the proceedings, it will, no doubt, well repay every individual who takes an interest in the advancement and proper government of the country, to be present on that occasion. The votes and proceedings of the late Parliament will receive a general review; and the position occupied by these different gentlemen made known to the assembly.

Progress.—Dr. Ford's Steam Grist and Saw Mill is expected to be running during the coming month. This Mill is to have four run of Stone; and Dr. Ford assures us it will be carried on with vigor. It is beautifully situated within a few rods of the Depot, thereby rendering it very convenient to ship the flour to market.

In the other end of the town Mr. STEPHENSON takes the Mill, known as Col. Corran's, on the 15th, which is to undergo a thorough repair, in order to make it do good work, until that gentleman gets his new Mill in operation, which is to be built the coming summer. Newman's done more in the building way last season than for four years previously; and we hear of a number of buildings to be erected the present year.

GREAT EXCITEMENT.—GARY'S Panorama of the Overland Route and scenes in California was exhibited in the Court House in this place last night, and will be again exhibited this (Friday) evening. We have seen a portion of this panorama, and can therefore confidently recommend the exhibition, as well worthy the patronage of the Public. There are twenty-eight scenes, each scene embracing 141 feet of canvas. The peculiar manner in which the Proprietor gives his description of the trials and troubles to be encountered in making the journey, and the general character of the people, makes the entertainment particularly interesting.

Meeting of Parliament.
The events of the Eastern War seems so completely to absorb public attention at the present time, that matters of a Provincial nature do not receive the due consideration they deserve. In a very few weeks, Parliament—that august assemblage of collected wisdom—will meet for the transaction of business. Keeping this in view, the Conservative Journals are now discussing the propriety or impropriety of turning out the present Coalition Administration, to make room for the ultra-liberal portion of the assembly, and allowing them to assume the reins of power; or, the return of Hincks and Morin. That the present Ministry is essentially conservative for all purposes necessary, is proven by their acts and appointments since they have held their sway. Government patronage is lavishly bestowed upon immediate friends; while Reformers, through the intriguing demagoguism of professed liberals, have been completely delivered over into the hands of the enemy.

The question then arises, should the present Coalition be tolerated in a House composed of about 100 Reformers to thirty Tories, where that Coalition is, to all intents and purposes, Conservative? No! The very idea is preposterous. To whom, then, should the keys of State be given? To Mr. Hincks? Not exactly: sooner allow the present individuals to continue in office—then we know what to expect. Well, then, could the Reformers unite and form a distinct working majority without Sir Allan or Hincks? We think so; and that too, without much difficulty. It is admitted on all hands that the Reform Party of Lower Canada embrace a large portion of the talent and ability of the members of that portion of the Province. True, this party have been termed the Annexationists; and red-hot Republicans by those desirous of destroying their influence; but when the fact is made

known, that they ask for nothing but what can be acquired under the workings of our present constitution, their allegations sink back into insignificance. Well, then, that being the fact, that they embrace a large portion of the talent of Lower Canada, it seems strange to us that out of the large list from U. Canada, enough could not be found to make a thoroughly liberal Administration. Had this been done when Hincks resigned, instead of allowing Sir Allan McNab to assume the dictatorship, we might have got rid of the everlasting disgrace of being saddled with a State-paid Church. The Reserve adjustment Bill would not have been distorted to making an annual allowance, for all future time, to the clerical divines of one particular sect above another, thereby giving them privileges denied to others equally as good—equally as zealous—equally as good citizens. A State Church in other countries have been the canker-worm gnawing at the vitals of sound principles; hence, there is neither harmony in religion, or good order in society: gold is worshipped more than the living God.

School Meeting.

The election for School Trustees to fill the vacancy occasioned by the retiring of Mr. Sullivan, took place in the New School House, pursuant to notice, on Wednesday last, the 10th inst. The meeting opened by calling Mr. Thos. Raper to the Chair, and appointing Mr. Moulton to act as Secretary. The Chairman after reading the notice calling the meeting and stating the object in view, requested the nomination of candidates to fill the vacancy, when the following gentlemen were moved and seconded, viz.:—Messrs. Wm. Doan, Wm. Southard, John McKay, and George Bache.

The meeting then proceeded to ballot for candidates, which resulted in the election of Mr. McKay.

The report of the School was then read, and after some little discussion in reference to some of the items, was carried. From this report we learn that the average attendance is about 70 scholars. The number has been at times swelled to 110, and then again reduced down to sixty. During the past year there have been 7 children in the school of non-residents, and about the same number admitted free.—These two points called forth some little discussion; but as that meeting had not power to act in the premises,—all they did was in a suggestive way. The Section has had but one Lecture during the year; and the Local Superintendent visited the School three times, and made examinations. The above are all the facts of general interest we could elicit from the report. The rate levied the ensuing year is 3s. 9d. per quarter, for every scholar.

The meeting also recommended the printing of a catalogue for the use of the rate-payers,—a copy of which is to be distributed to every family in the Section; the expenses are to be borne out of the School Fund.

Public Dinner to Mr. Hartman.

We clip the following paragraphs from two Toronto journals of this week, which clearly indicate the tone of public opinion abroad, in reference to our Representative. Few men occupying a public position have had to meet the kind of opposition that Mr. Hartman has; chiefly arising, as it does, from feelings of a personal nature,—nay, further, to a great extent, through jealousy. The North American, in speaking of the Dinner, says:—

DINNER TO MR. HARTMAN.—The Reformers of North York intend to give their excellent representative, Joseph Hartman, Esq., a public dinner, at the village of Aurora, which will, on Friday, the 19th inst. The Committee has also invited a number of the Reform members of Parliament, including the Editors of the Examiner and North American. We have no doubt the demonstration will be worthy the fame of the true blues of that noble Riding.—The Northern Railroad passes through the village.

The Examiner, another journal of long standing, and one that fearlessly advocates the peoples' rights, says:—

The Electors of North York purpose giving Joseph Hartman, Esq., their Representative, a public dinner at Aurora, on the 19th inst.—No one has stood firmer in defence of popular rights than Mr. Hartman, and he deserves, and we hope possesses, the confidence of all true Reformers in the County.

In the mouth of two witnesses therefore, let it be established, that Joseph Hartman, Esq., is a good and faithful Representative.

Aurora Village.

At a meeting held in the School House, in the Village of Aurora, on the 8th of January, 1855, to take into effect a By-Law of the Municipal Council, to constitute the Village of Aurora a Police Village: and for the purpose of electing three Police Trustees, in accordance with the Act, 12 Vic., Chap. 81, Sec. 42.—Mr. J. T. Gurnett in the Chair.—Mr. W. Mosely, Secretary—a protest being made by Mr. R. Macchell, against any part of his land being included in the Village constituted: the Police Village of Aurora, the meeting proceeded:—

Moved by Mr. M. Lopper, seconded by R. P. Irwin, Esq., That Mr. John T. Gurnett be elected a Trustee for the present term.—Carried.

Moved by Mr. Chas. Doan, seconded by Mr. William Hughes, That Mr. James Mosely be elected a Trustee for the present term.—Carried.

Moved by R. P. Irwin, Esq., seconded by Mr. Jas. Andrews, That Mr. John Campbell be elected a Trustee for the present term.—Carried.

Moved and seconded that this meeting do now adjourn.

J. T. Gurnett, Chairman.
W. Mosely, Secretary.

CORRESPONDENCE.

TO THE EDITOR OF THE NEW STAR.
Dear Sir,—Knowing you to be ever ready to give place in the columns of your highly useful paper, to local matters generally, I therefore submit to you for insertion the doings of our recent Municipal Election in Ward No. 3.

Seeing in your paper of the 29th ult. under the head of Local Matter, mention made of John D. Phillips, Esq., running for his old Ward, and no opposition, I was somewhat surprised, as the parties from whom you had your information must have been aware of the fact that Mr. Silas Snider was made choice of by his parish party, to be their candidate—the result of the election proving this to be the fact.

Mr. Phillips' complaint of being badly treated in the matter; but by permission, Mr. Editor, I will show that Mr. Phillips was the cause of his own defeat—and in what way: Prior to the election, Mr. Phillips told one or two of his old friends, that he was about to leave the Township, and consequently would not be in the field for Municipal honors, and that they had better govern themselves accordingly—or words to that effect; and also, that they would meet with no opposition from him. The consequence of the above announcement was, that the electors went promptly to work, and like the immortal Davy Crockett, made sure they were right, and then went to head 1.

Pursuant to notice, the election for Ward No. 3 was held at Mr. Levi Hancock's Inn, on Monday and Tuesday last, 1st and 2nd inst.; when, after the preliminaries, Mr. Reuben Judd, Returning Officer, called upon the meeting to name their candidates. It was

Moved by John Webb, seconded by Samuel L. Phillips, Esq., That John D. Phillips be candidate.

Moved by Thomas Lloyd, seconded by Jesse Hillburn, That Silas Snider also be candidate.

After proposing Murdoch Lloyd and James Gordon for Inspectors, a division being taken it was evident that Messrs. Snider and Lloyd were the men. Upon this being known, a poll was demanded by Mr. Phillips' friends.

The Poll Books were then opened, and before night Mr. Phillips and his friends were satisfied that the people on the Fourth Line of King knew a thing or two. Next morning the Polling commenced with unabated vigor and kept up until the close. The following is the result:—

Silas Snider 52; John D. Phillips 69. The Returning Officer, upon declaring the first named gentleman elected, Mr. Phillips said the election had turned against him; that he had heard few or no complaints; that Mr. Snider would find some difficulties to encounter, &c.

Mr. Snider, upon rising, said that he was raised to a higher position than he anticipated, and would do his best for all parties.

Shortly after which, the meeting broke up, and many returned to their homes well satisfied with the result.

Yours, &c.
AS ELECTOR.

Campaign in the Crimea.

To the Editor of the Times
Sir,—The following extract from *Lanset's Journal* will show that the hardships of a soldier's life in the Crimea have not yet been more severe than in our Peninsula campaigns:—

Page 40.—"Ciudad Rodrigo, Nov. 19, 1812.—Off by 4. It rained hard, the whole of the army was in sight, cooking their dinners in the rain. Marching in the swampy ground. The rain descended in torrents. Next day we found the whole road under water for miles, ankle and even knee deep. Many sick, two officers died of fatigue on the road, dead mules in plenty, and some men." Page 46.—"There was starvation—no corn, no hay, no straw no bread, no rain for three days, only beef and biscuit. Tea, 22s and 25s per lb; butter, 4s; bread, is 6d per lb, above 6s the loaf; no wine or brandy; gin, 12s. per bottle. The truth was, the troops, poor fellows, came through the town quite starving, the supplies had been mismanaged.—Regiments were three or four days without rations, and numbers died of absolute starvation, besides the sick. I had no notion of the loss of this retreat, and the great sufferings of the men and horses. I suppose, from what I hear about 1,000 are made prisoners, but 5,000 or 6,000 put for some time horse do combat, by sickness, starvation, want of horses, &c."

Vol. II., p. 17.—"The scene at Ligas was dreadful. All the wounded from Lans were just arrived in cars, on mules, crawling on crutches, and hobbling along; all those, with wounds in their hands and arms walking.—At 6 that evening the wounded were ordered to move on. About 7 a furious thunderstorm came, and caught all our poor wounded men on their march."

"Oct. 31, 1813.—The weather has been trying. The thermometer got down to 36, but it soon turned to wet, raw, violent, constant cold wet, north-west wind, and rain in stormy torrents. In camp our poor soldiers have had their tents torn and almost washed away; then we had hail followed by snow. Most of the Light Division tents have been declared unserviceable from rents, &c. The men are as yet still returned as healthy, and I believe our men bear this cold weather better than heat."

I think, Sir, it is cheering to read that, with the thermometer at 36, our troops in the Peninsula were better than in the milder weather.

I am, Sir, your obedient servant, S. F. S.

INDIVIDUAL BRAVERY OF A BRITISH PRIVATE.

A private of the 33rd regiment, (Duke of Wellington's) by name MacGuire, has attracted the notice of the Commander-in-Chief by an act of daring. He was in advanced as a ship-shooter, and was made prisoner. He was being marched away between two Russian soldiers, a third being in rear, when, seeing his guard for a moment careless, and looking in another direction, he suddenly seized a loaded musket from one of the two men at his side, and discharged it at him.—No sooner had he done this, than he swung around the butt-end, and with it struck the second man on his other side—a blow on the head which felled him to the ground.—The third Russian decamped, and MacGuire effected his escape. He was at the time within a hundred yards of the Russian lines. His own music, had been taken from him, was being carried by one of the two men by his side; but he knew this had been discharged, and therefore seized a musket from the other soldier, which, fortunately turned out to be loaded. The affair was witnessed by a sergeant of the Rifle Brigade, and in consequence of his report, Lord Raglan rewarded MacGuire with a gratuity of £5.

SIR GEORGE BROWN'S GRAY CHARGER.—A remarkable instance of vitality is recorded of the horse stricken by Sir George's shot at Alma. No fewer than eleven bullets were extracted from the poor animal at Constantinople, whither he was sent for treatment. The horse afterwards joined his master, and is now perfectly well, and fit for field duty.

The Tenare Fraud.

The wrong which has been inflicted upon the country by the Tenare chief of the infamous Coalition is quite as obnoxious to the people of Lower Canada as to those of Upper Canada. The following is from the *Montreal Argus*:—

Our readers from what has already transpired, must have been prepared for any act of vacillation or meanness on the part of the government with relation to the Seigneurial Tenure bill. By special telegraph yesterday evening from Quebec, we learn that our predictions are verified, and that the select committee of the Legislative Council has reported a large number of amendments nearly similar in spirit to those suggested in Mr. Hincks' pamphlet; that those amendments have been adopted by the government, and that the bill, as thus amended, would probably go through its third reading, and pass the Council. We further learn that all the Seminary and Crown cessionaires are excluded from the benefit this bill purposes to confer;—thus one-fifth the number of cessionaires in Lower Canada, and one million and a half of acres of land, will continue to groan under the curse of the Feudal Tenure. Nearly all the obnoxious parts of the old measure are retained, with some, equally objectionable added. The first instalment to be paid by the country to effect this settlement as it is called—although it is no settlement at all—of disputes between Seigniors and their cessionaires is to be met, says Mr. Gayley, by an increase to the public debt of no less a sum than three hundred and fifty thousand pounds in the form of government debentures to that amount, to be immediately issued. *Quisquis tandem abutere patientia nostra!* What further drains on the pockets and the patience of the people are to be made for the purpose of sustaining the Compact, through whom each section of the country in turn is made to fleece the other, time only can unravel. We await further developments before offering the remarks which the mere statement of facts would impel us to make.

Most of the Upper Canada members having left Quebec under the expectation, amounting to a promise, that nothing of importance would be brought up previous to the adjournment, and there being a majority of the ministerial tail on the spot ready to participate in the "spoils," there seems every reason to apprehend that any proposition of the government, however monstrous it may be, will be carried. But to watch a pitch of indignation the country will be aroused, when this most iniquitous and spoliation scheme comes home to their understanding, there is no difficulty whatever in predicting.

The "spoliation" measure was carried, Lord Elgin gave his sanction—a measure far more unjust to Upper Canada, than the Rebellion Losses Bill—and it is now law.—The debentures will be issued, and, if possible, sold, and the tax-payers of Upper Canada will be called upon to bear their part of the burden! Electors of Upper Canada, are you willing to make such sacrifices as this to enable McNab, Gayley, Spence & Co., to pocket large salaries?—*North American*.

Ferrie on False Forms of Faith.

Messrs. Hincks, McNab, Gayley, & Co. have added a host of new Roman Catholic Colleges, to the Supplies this year—vast sums for building them, and large endowments. This is, of course, a denial of their dissection of Church and State doctrine, as embodied in the Reserves bill—but they have no real principle of any kind, and therefore do not blush. One evil is, that voting for these grants will make Upper Canada members odious, and they were kept back till they were nearly all gone. Mr. Ferrie, however, moved, Dec. 11, 1854 "that in it is expedient to appropriate the public money, for the support of sectarian schools, and that with this view, it is expedient to refer back the Report to the Committee of the Whole, for the purpose of granting one year's allowance, as a final payment to such sectarian educational institutions as have heretofore received aid from the public chest and of expunging all grants for such institutions placed upon the list this year, for the first time;" and the yeas were only 7, viz: Bell, Brown, Ferrie, Hartman, Louniden, Macdonald of Glenagary, and McKenzie.

Lower Canada left us to a man, and went for sectarian grants by the score or hundred—the yeas for "down with Ferrie's motion" being 34, viz: Larwill, John a Macdonald, Postmaster Spence, Solicitor Smith, our American neighbor Stevenson, Joseph C. Morrison, Powell, and Robinson of the Canada Company, and 26 *Lower Canada*, church builders.—*Message*.

SPRING GUNS.—Spikes are about four inches long, and of the dimensions of a tobacco-pipe; the head flat, a barb at the point acts as a spring, which is naturally pressed to the shaft upon being forced into the touch-hole. Upon reaching the chamber of the gun it resumes its position, and it is impossible to withdraw it. It can only be got out by drilling—no easy task, as it is made of the hardest steel, and being also somewhat lessened in the touch-hole, there is much difficulty in making a drill bite as effectual as it should be. Its application is the work of a moment, a simple tap on the flat head with the palm of the hand sufficing. This can be easily done even if it is ever so dark.

GO TO THE WARS.—Last week, a young American engineer of talent and skill, who had successively served in the navies of England Russia and the United States, sailed from this port to Europe, in response to tenders made him by the Emperor of all the Russias, again to enlist in his service. The offers were of the most advantageous and flattering character. He took with him some fifteen or twenty young men whom he had enlisted as associates, and who for a few months back have been in training under experienced and skilful instruction. It is well known that the Emperor has long appreciated American talent, and is now making it available whenever possible.—[*Boston Telegraph*, 26th.

A CAUTION.—A French Canadian near Montreal was the other day tricked in one of our markets by an American, who in the purchase of a horse valued at £15, managed to pass off three of the engravings which envelopes the *Kathairon* hair dye, and represents to an ignorant person—figures \$20, although not purporting to be of that value. The cheat was not discovered until the rogue and his horse were well over the lines. We can hardly pity the simplicity of the man, who unable to read, will receive in payment notes from a stranger, and particularly American bills, which are now scarcely taken by the shrewdest among us.—*Chronicle*.

AZOR'S TURKISH BALM.

THE GREAT TURKISH REMEDY FOR BALDNESS,
And for Invigorating and Beautifying the Hair.

The only certain Remedy for Baldness, and for preventing and stopping the falling out of the hair.

As a Toilet Article, for Beautifying and keeping the Hair Soft, Glossy, and in a healthy Condition, it is unequalled. Its positive qualities are as follows:

1st. It feeds the hair from the roots, strengthens the roots, imparts health and vigor to the circulation, and prevents the hair changing colour or getting gray.

2nd. It causes the hair to curl beautifully when done up in its own night.

This Balm is made from the original receipt procured from the original Turkish Hakim (physician) of Constantinople, where it is universally used.

The Turks have always been celebrated for their wonderful skill in compounding the richest perfumes and all other toilet articles. In Turkey the aromatic herbs, &c., of which this Balm is composed, are almost universally known and used for the hair.

Hence a case of baldness or thin hair of hair entirely unknown in that country. We wish but one trial to be made of it; that will do more to convince you of its virtue than all the arguments that can be published, and that all may be able to test in view, it is but up in Large Bottles at the low price of 50 cents per Bottle.

Remember the Genuine has the signature of Comstock & Brother on the splendid wrapper.

To Owners of and Dealers in Horses.
CARLTON'S POUNDER OINTMENT.

For the cure of Founder, Split Hoof, Hoof-bound Horses, and Contracted and Foul-hoofed Feet, Bruises in the Flesh, Galled Backs, Cracked Heels, Scratches, Cuts, Ricks, &c. on horses.

Carlton's Ring-bone Cure.
For the cure of Ring-bone, Blood Spavin, Bone Spavin, Windgalls, and splint—a certain remedy.

Carlton's Condition Powders for Horses and Cattle.
The changes of weather and season, with change of food and feed, have a very great effect upon the blood and sinuous fluids of horses. It is at these changes they require an assistant to nature to throw off any disorder of the fluids of the body that may have been imbibed, and which, if not attended to, will result in the Yellow Water, Heaves, Worms, Bots, &c. All of which will be prevented by giving one of these powders, and will at any time cure when any symptom of disease appears, if used in time.

They purify the blood, remove all inflammation and fever, loosen the skin, cleanse the water, and invigorate the whole body, enabling them to do more work with the same feed. The action of these powders is direct upon all the secretory glands, and therefore they have the same effect upon the Horse, the Ox, the Ass, and all Herbivorous animals—all diseases arising from or producing a bad state of the blood, are speedily cured by them. CAUTION.

Remember and ask for **CARLTON'S CONDITION POWDER**, and take no others.

Carlton's Nerve and Bone Liment for Horses.
And for the cure of all diseases of man or beast that require external application, and for contracted tendons and muscles, strengthen weak limbs, and is also used for sprains, bruises, saddle galls, scalds, sores of all kinds on horses.

Carlton's British Heave Powders.
A never-failing cure for Heaves, Thick and Broken Wind, Colds, Coughs, Hamorrhages of the Lungs, and all diseases which affect the Wind of Horses.

CARLTON'S articles for Horses and Cattle are prepared from the recipe of a very celebrated English Farrier, and will cure in ninety-nine cases out of one hundred any of the above complaints. They have been used by Farmers, livery men, stage proprietors and others, with the most marked and decided success.

CAUTION.—None can be genuine unless you find the name of J. Carlton Comstock on the Wrapper of each article. Remember this, as their articles have been extensively counterfeited off late, look and find the proprietors' name, J. Carlton Comstock, &c., never buy without.

AMUSEMENT.

Springs of Poetry.

I saw to-day, coming my way,
A bonnet with a face below it;
(I think I saw it, I'll bet a kiss,
Not doubting she would quick bestow it.)
But getting close, I saw her nose
Was crooked, and I couldn't go it.

A crooked nose! a crooked nose!
Why should a charming lady wear it?
But I suppose that she knows
It that it grows, and so she'll bear it;
And fume and fret, when she might get
The nearest surgeon to repair it.

Lawyer shows that woman's nose,
An index true the heart discloses,
And that each look, and twist, and crook,
Some secret mental trait exposes.
And when her back is turned oblique,
Her mind is crooked as her nose is.

When Sarah Jane, the moral Miss,
Declares "it's very wrong to kiss,"
I really think that I see through it;
The lady, fairly understood,
Feels just as any Christian should—
She'd rather suffer wrong than do it!

An Irishman on being asked on a late trial
for a certificate of his marriage, exhibited a
huge scar on his head, which might have
been made with a fire shovel. The evi-
dence was satisfactory.

It is pretty evident that when a man buys
a hundred-dollar handkerchief for a "duck of
a wife," that he is a "goose of a husband."

EXAMINATION OF ATTORNEYS.—The fol-
lowing racy examination of a candidate for
admission to the bar, is taken from a west-
ern law journal, and is decidedly a good hit.

The examiner commences with:

"Do you smoke?"

"I do sir."

"Have you a spare cigar?"

"Yes sir," (extending a short six.)

"Now sir, what is the first duty of a law-
yer?"

"To collect fees."

"What is the second?"

"To increase the number of his clients."

"When does your position towards your
clients change?"

"When making a bill of costs."

"Explain."

"When they occupy the antagonist posi-
tion; I assume the character of plaintiff and
defendant."

"A suit decided, how do you stand with a
lawyer conducting the other side?"

"Check by jowl."

"Enough sir, you promise to become an
ornament to your profession; and I wish you
succeed. Now are you aware of the duty
you owe me?"

"I am sir."

"Describe it."

"It is to invite you to drink."

"But suppose I decline?"

"(Candidate, scratching his head.) "There
is no instance of the kind on record on the
books! I cannot answer the question."

"You are right; and the confidence with
which you make an assertion, shows that
you have read the law attentively. Let's
take a drink, and I will sign your certifi-
cate."

LONG SERMONS.—"What a splendid ser-
mon Brimstone Blazer preached on Sunday!"

said Mr. Snuffie to Lawyer Bang, lately.

"Yes!" said the lawyer; but he only got a
shilling out of me with all his talk. Snuffie
looked Pharisae and whited sepulchres at
this confession, upon which the lawyer thus
continued: "Why, you see I have a rule of
my own in these matters. When there is a
clarity sermon announced I go to church
with a *prima facie* intention of putting a
sovereign into the box, but under certain
restrictions. The sovereign is for a sermon
of twenty minutes; for every minute be-
yond that time I knock off a shilling, and
saved nineteen by him!"

At the railway depot in Lowell, not long
since, Look a hea, Jake, said Sambo, his
eyes dilating and his rows of shining teeth
protruding like a regiment of pearls. "Look
a hea, Jake, what you call dem ar?" "What
ar?" rejoined Jake. "Dem ar is posties,"
said Jake. "What!" said Sambo, scratching
his head; "dem ar posties wê de glass?"
"Yes, de same sential," returned Jake.
"Ah, but you sees dem ar horizontal wires."
"Well," observed Jake, "dem ar posties sup-
ports de wires." "Gosh! it takes you, nigger,
and both setting up a loud yah yah. But
what de wires for?" said Sambo, after a
pause. "De wires," replied Jake, completely
staggered for a moment, and at a nonplus
for a reply to the philosophical curiosity of
brother Sambo; but, suddenly lighting up
with more than nigger fire, he said, "De
wires is for to keep de posties up!"

LORENZO DOW.—"I knew," said Lorenzo,
in the course of one of his strangely com-
pounded discourses, "an exceedingly happy
and affectionate young couple, who had but
recently commenced housekeeping in all the
luxury of newly-wedded love and elegant
plenty."

"As they sat one evening in their parlor,
exchanging the little tender nothings of re-
ciprocal affection, a sleek little mouse ran
across the room."

"My dear," cried the lady, "did you see
that mouse?"

"Yes, I saw it, my dear; but it was a rat."

"Oh, no, love," said the wife, "it was cer-
tainly a mouse."

"Madam, I tell you it was a rat!" replied
the husband, sternly.

"It was a mouse!" reiterated the lady: I
saw it very distinctly. I should know what
I see."

"I saw it also, madam; and my eyes are
as good as yours."

"Your eyes may be as good, Sir; but
your judgement is not!" retorted the lady.

"And so," continued Lorenzo, "the quar-
rel went on, until they so incensed each other
that neither spoke to the other for a week.

At length, tired of glooming away the hours,
they became reconciled; and one evening,
soon afterward, as they sat chatting and toy-
ing together, and expressing for each other
unbounded affection, the wife casually re-
marked—

"How foolish it was in us to quarrel so
about a little mouse!"

"Mouse! my dear; you mean a rat!" ex-
claimed the husband.

"No; when I say mouse, I mean a
mouse," replied the wife; and thus the quar-
rel was renewed, and a second breach of do-
mestic peace was the consequence."

"What a lesson to the quarrelsome is this
illustrated pointed about a matter of not the
slightest consequence."
